This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the
ollowing limitations and conditions: This permit is issued subject to existing right It is understood that the amount of water herein granted is only a
temporary allowance and that the final water right obtained under the this permit will be dependent upon the amount of water actually placed
to beneficial use. It is also understood that this right must allow
for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth
to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed
and maintained in the discharge pipe line near the point of diversion
and accurate measurements must be kept of water placed to beneficial
use. The totalizing meter must be installed before any use of water
pegins, or before the Proof of Completion of Work is filed. This
source is located within an area designated by the State Engineer,
oursuant to NRS 534.030. The State retains the right to regulate
the use of the water herein granted at any and all times.
The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and
ot to exceed 0.2 cubic feet per second , but not to exceed
3 acre-feet annually.
Actual construction work shall begin on or before
Proof of commencement of work shall be filed before
Work must be prosecuted with reasonable diligence and be completed on or before. July 10, 1975
Proof of completion of work shall be filed before August 10, 1975
